THURSDAY

A decorative grid pattern. On the left side, there is a vertical line with five white circles. To the right of this line is a grid of squares. The grid has four rows and four columns. The squares in the first column of the grid are white. The squares in the other three columns are light gray. The squares in the first row of the grid are white. The squares in the other three rows are light gray.

Month of:

MONDAY

TUESDAY

WEDNESDAY

THURSDAY

A decorative grid pattern. On the left side, there is a vertical line with five white circles. To the right of this line is a grid of squares. The grid has five rows and four columns. The squares in the first, third, and fifth rows are white, while the squares in the second and fourth rows are light blue. This creates a checkerboard-like pattern of white and light blue squares.
