A decorative grid pattern. On the left side, there is a vertical line with six white circles. To the right of this line is a grid of squares. The grid has four columns and six rows. The squares in the first column of the grid are filled with a light brown color. The squares in the other columns are white.

Month of:

MONDAY

TUESDAY

WEDNESDAY

THURSDAY

The diagram shows a 6x4 grid. On the far left, there is a vertical line with six circles, one at each row level. The grid is formed by seven vertical lines and seven horizontal lines. At each of the 24 intersections of these lines (excluding the outermost vertical line), there is a small, light-brown shaded square. This creates a pattern where the shaded squares are aligned in four vertical columns, each containing six squares corresponding to the six rows.
