# goal PLANNER

My big goal

Why do I want it

Obstacles & how to overcome them?

I will know I have reached my goal because:

I will measure my progress by:

# smart goal CHECKLIST

**Specific:** write the goal clearly. state what is needed to complete this goal.

---

---

**Measurable:** how will you know when you've reached this goal? does this goal answer the question of how many, how much and/or how often?

---

---

**Achievable:** is your goal within what you can accomplish? make sure your goal isn't too extreme but not as easy neither.

---

---

**Relevant:** set goals that will make a difference in your life right now. are these goals consistent with goals for your long term plan?

---

---

**Time-bound:** does the goal have a clear and specific completion date?

---

# break it DOWN

*List the specific key steps needed to achieve your goal.*

What specific actions do you need to take to achieve your goal? Try to write down each action that you can think of. Set a deadline so you can stay on track.

# goals progress REVIEW

Many goals wither away because we stop paying attention to it. Make it a habit to check your progress every month or week. When you constantly remind yourself what your goals are and why they are important to you, you will be more mindful in trying to achieve those goals every day.

Keep a log daily to keep track of your progress. Write down what you did to get you closer to your goal. Write about how you felt.
